Manasa Barik

Ex- Intern at Indian Oil Corporation Limited (IOCL) | B.Tech CSE
(Data Science), GIET University (2023–2027)
Bhubaneswar, Odisha, India

Summary

I am student of Computer science engineering
with specialization Data Science

Experience

Infosys Springboard

Intern

February 2026 - Present (2 months)

Indian Oil Corporation Limited (Iocl)

Winter Intern

December 2025 - January 2026 (2 months)

Guwahati, Assam, India

Internship Experience | Project-Based Internship

I successfully completed my internship where I worked on SPARK – Smart Permit, Access, and Risk Kontrol System, a web-based industrial gate management and safety monitoring solution.

During this internship, I was involved in the end-to-end design and development of a system that integrates digital permit management, face recognition, PPE verification, and automated attendance to address real-world industrial safety and access-control challenges.

Key Contributions & Learnings:

Designed a digital permit workflow with multi-level verification (User → CISF → Admin).

Implemented face recognition for secure and contactless identity verification.

Developed department-based PPE verification logic, considering real hardware limitations.

Integrated controlled attendance automation with manual security confirmation.

Worked with a centralized SQLite database for permits, attendance, and audit logs.

Followed real industrial practices by combining AI validation with human oversight.

Improved understanding of computer vision, system architecture, and secure workflows.

Technologies & Tools: Python | Django | OpenCV | Computer Vision | SQLite | Web Technologies | AI-based Validation

This internship helped me gain strong hands-on experience in AI-assisted system design, problem-solving, and building scalable, real-world applications rather than simple demo projects. It also strengthened my understanding of how technology is applied in industrial safety, security, and access management systems.

Grateful for the learning experience and excited to apply these skills in future projects and opportunities .

Hebbale Academy
Summer Intern
May 2025 - July 2025 (3 months)

YHills
Intern
June 2024 - July 2024 (2 months)
Odisha, India

Education

GIET University Gunupur
Bachelor of Technology - BTech, Computer Science · (August 2023 - June 2027)
